BOB BURNS PROPOSED AMENDMENT NO. 2

RECEIVED

TIME/DATE PREPARED: April 10, 2015

2015 APR 10 P 2:15
COMPANY: Resource Planning and Procurement in 2013 and 2014

AGENDA ITEM NO.: 25

AZ CORP COMMISSION
DOCKET NO.: E-00000V-13-0070

OPEN MEETING DATE: April 14-15, 2015

At Page 12, Line 18, INSERT new FINDING OF FACT No. 25:

Additionally, the LSEs should incorporate the portfolios listed below in their 2016 IRPs in addition to the portfolios they typically incorporate. Specifically, the LSEs should explain how they considered portfolios emphasizing the technologies listed below. If the LSEs did not include the following portfolios in their IRPs, they should indicate the reason(s) why they were excluded:

- (1) Energy Storage
- (2) Small Modular Nuclear Reactors
- (3) Expanded Renewables (including distributed resources): biogas, solar, wind, geothermal, etc.
- (4) Expanded Energy Efficiency/Demand Response/Integrated Demand Side Management (which should include the effect of microgrids and combined heat and power)

Furthermore, the LSEs shall provide a thorough discussion regarding their plans for aging generation plants in their future IRPs. If an LSE intends to upgrade, update, retire, alter, etc. an existing generation plant, this information should be included in its 3-Year Action Plan, IRP and any amendments thereto, prior to the utility taking action.

At Page 14, Line 4, INSERT NEW ORDERING PARAGRAPHS:

IT IS FURTHER ORDERED that Arizona Public Service Company, Tucson Electric Power Company, and UNS Electric, Inc. and Arizona Electric Power Cooperative shall consider the following portfolios in their 2016 Integrated Resource Plans in addition to the portfolios they typically incorporate: (1) energy storage; (2) small nuclear reactors; (3) expanded renewables (including distributed resources): biogas, solar, wind, geothermal, etc.; and (4) expanded energy efficiency/demand response/integrated demand side management (which shall include the effect of microgrids and combined heat and power). If the Load Serving Entities did not include these portfolios in their Integrated Resource Plans, they shall indicate the reason(s) why they were excluded.

IT IS FURTHER ORDERED that each Load Serving Entity shall provide a thorough discussion regarding its plans for aging generation plants in its future Integrated Resource Plans. If a Load Serving Entity intends to upgrade, update, retire, alter, etc. an existing generation plant, this information must be included in its 3-Year Plan, Integrated Resource Plan and any amendments thereto, prior to the utility taking action.
